forensic psychology has mushroomed into a diverse and increasingly complex field that is equal parts law and psychology psychologists act as expert witnesses in legal cases sometimes without knowing much about the laws involved and legal professionals rely on the assessment of psychologists sometimes without knowing much about how such assessments are made the purpose of this handbook is to provide professionals with current practical and empirically based information to guide their work in forensic settings or to better their understanding of the issues and debates in forensic psychology divided into four sections the handbook of forensic psychology covers basic issues assessment mental disorders and forensic psychology and special topics the basic issue chapters present a primer on law for the psychologist a primer on psychology for attorneys an overview of ethical issues relevant to forensic psychology and a chapter on

forensic report writing the assessment section discusses factors and measures relevant for assessing a variety of behaviors propensities and capabilities including dangerousness violence suicide competency substance abuse ptsd and neuropsychological evaluations as well as discussing interviewing children and child custody evaluations additional chapters discuss eyewitness testimony recovered memory polygraphs sexual harassment juror selection and issues of ethnicity in forensic psychology

written by authors with extensive experience in both the field and classroom introduction to forensic psychology research and application seventh edition equips students with the skills to analyze psychological knowledge and research findings applying them effectively to both civil and criminal justice systems the text is structured to cover five vital areas law enforcement and investigative psychology legal psychology criminal psychology victimology and victim services and correctional psychology while also addressing emerging technologies such as facial recognition and artificial intelligence moreover it emphasizes an essential multicultural perspective underscoring the need for sensitivity to ethnic gender cultural and racial dynamics preparing students to navigate the diverse challenges they will encounter in their professional careers

coerced confessions have long been a staple of tv crime dramas and have also been the subject of recent news stories the complexity of such situations however is rarely explored even in the scientific literature now in softcover interrogations confessions and entrapment remains one of the best syntheses of the scientific legal and ethical findings in this area uncovering subtle yet powerful forces that often compromise the integrity of the criminal justice system editor g daniel lassiter identifies the exposure of psychological coercion as an emerging frontier in legal psychology citing its roots in the third degree approach of former times and noting that its techniques carry little scientific validity a team of psychologists criminologists and legal scholars asks and goes a long way toward answering important questions such as what forms of psychological coercion are involved in interrogation are some people more susceptible to falsely confessing than others what are the effects of psychological manipulation on innocent suspects are coercive tactics ever justified with minors can jurors recognize psychological coercion and unreliable confessions can entrapment techniques encourage people to commit crimes what steps can law enforcement take to minimize coercion throughout this progressive volume readers will find important research based ideas for educating the courts changing policy and implementing reform from improving police interrogation skills to better methods of evaluating confession evidence for the expert witness legal consultant or student of forensic psychology this is material whose relevance will only increase with time

sexual murder catathymic and compulsive homicides is the culmination of the author s 45 years of experience with and studying sexually motivated homicide sexual murders are generally of two types catathymic and compulsive catathymic homicides are caused by a breakthrough of underlying sexual conflicts they can be unplanned explosive acute attacks or planned murders stemming from a chronic obsession with or disturbed

attachment to the victim in compulsive homicides a fusion of sex and aggression results in a powerful internal drive which pushes the offender to seek out victims to kill and the killing itself is sexually gratifying these murders also may be planned or unplanned in compulsive homicides that are unplanned the urge breaks through and disrupts the offender's controls when a victim of opportunity crosses his path the compulsive offender who plans his crimes often eludes law enforcement and as a result he can have multiple serial victims over extended periods of time both forms of sexual murder the catathymic and the compulsive are presented in this volume from a clinical descriptive perspective encompassing case studies with analysis recent advances in empirical research in sexual murder including findings from the joint research project between John Jay College of Criminal Justice and the FBI Behavioral Analysis Unit in Quantico has published many important studies these include such topics as necrophilia foreign object insertions in sexual homicide ritual and signature and temporal patterns in serial sexual homicide mass murder crime scene staging in homicide and undoing symbolic reversal at homicide scenes all such research will be included and incorporated into this fully updated second edition including approximately fifty new clinical case studies
